

Here are 4 stickers - meant to 'dress' four pens (in case you have friends that you can convince to act) ;-)
two of the stickers are with logo of Pro REGENWALD, two without - take the one(s), you want

Just **print this file**. **cut the stickers** and **attach one to a pen** (start fixing the sticker with its foot-side and then role it around the pen - choose a pen not to thick for your national mail regulations/postage).

Below are two cards - in english and portugues - use the one you find appropriate to be sent either to the Brazilian embassy in your country or - if you want - to president Lula directly in Brasilia:

Exmo. Sr. Presidente da República,
Luis Inácio Lula da Silva
Palácio do Planalto
CEP 70150-900
Brasília, DF - Brazil

if you sent to the embassy,
you have to get the missing parts
for the address (check website)
and write to the card.

Please don't forget: every single card/pen that gets to the Brazilian embassy in YOUR country makes a difference - already two or three pens per country make this a strong action! And it takes only 10 minutes!!!!
